CLAOSBARBI

AGNOSIA IS THE LOSS
OF THE ABILITY TO
RECOGNIZE OBJECTS,
FACES, VOICES, OR
PLACES. IT'S A RARE
DISORDER INVOLVING
ONE (OR MORE) OF THE
SENSES. AGNOSIA
USUALLY AFFECTS ONLY
A SINGLE INFORMATION
PATHWAY IN THE BRAIN.
IF YOU HAVE THIS
CONDITION YOU CAN
STILL THINK, SPEAK,
AND INTERACT WITH THE
WORLD

Two colours handpulled Screenprint on plexiglass + protective transparent varnish advertising posters collected from the streets rearranged in one-off compositions glued on wood. Two editions of thirty three pieces, all different from each other
